

The chart displays the progression of COVID-19 cases in Felisburgo/MG. The y-axis, labeled 'Log Inc', uses a logarithmic scale to represent the number of incidents, ranging from 10^0 to 10^2 . The x-axis marks specific dates: 07/12/2020, 02/06/2021, 05/27/2021, 10/28/2021, and 08/10/2022. The 'Moving Average' (black line) shows a significant peak in early 2021, followed by a decline and then a second, higher peak in late 2021/early 2022. A third, very sharp peak is visible in late 2022. The 'Data of citie' (red stars) shows individual daily or near-daily reports, with many points at the 10^0 level, indicating zero incidents on those days, and several points reaching up to 10^2 in late 2022.
