

The graph illustrates the progression of COVID-19 cases in Novo Oriente do Piauí, PI, from late 2020 to late 2021. The y-axis represents the logarithm of the number of cases (Log Inc), ranging from 10⁰ to 10¹. The x-axis shows dates from 06/29/2020 to 10/21/2021. The black line represents the moving average, and the red stars represent the daily data points. The data shows a significant peak in late 2020, followed by a decline and then a sharp rise in early 2021, peaking again in late 2021.
